

WELLNESS PLAN OVERVIEW

Puppies and kittens inherit a natural immunity from their mother that protects them from birth until about 6 weeks of age.

After 6 weeks, your pet depends on you to continue that protection until their own immune system is fully developed. A **TruePet Wellness Plan** is designed to continue that protection by providing services necessary to carry your young pet through the important first year of life.

Preventative routine health care is the key to a longer, happier life for your young pet. The puppy and kitten plans offered by **Carolinas Veterinary Care Clinic** include necessary examinations, vaccines, lab work, and other tests needed in the first year of life. If your pet has not been spayed or neutered, our Gold Plan includes the pre-surgical blood work, hospitalization for the day, surgical procedure, and the recheck examination. Our plans also include unlimited \$25 Exam Co-Pays for all scheduled exams.

For maximum protection, we recommend you enroll your pet between 8 weeks and 5 months of age.
